CAMEL WOOL

The **camels of Bactria**, or Mongolian camels are distinguished by their two humps, unlike the Arabian camels. Domesticated since Antiquity, these hardy animals played a key role on the Silk Road thanks to their resistance to cold, drought and high altitudes.

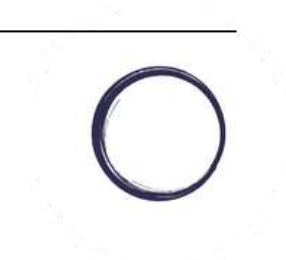

Les **chameaux de Bactriane**, ou chameaux de Mongolie, se distinguent par leurs **deux bosses**, à la différence des dromadaires. Domestiqués depuis l'Antiquité, ces animaux robustes ont joué un rôle essentiel sur la Route de la Soie grâce à leur **résistance au froid, à la sécheresse** et aux hautes altitudes.

YACK DOWN

Originally from Tibet, yaks were introduced to Mongolia in the 16th century at the same time as Buddhism.

Yaks are not only adapted to extreme environments of high altitude, but they are also a sustainable and economical resource. They use pasture land and water points in mountain areas efficiently, contributing to environmentally friendly production.

--

Originaires **du Tibet**, les yaks ont été introduits en Mongolie aux XVI^e siècle en même temps que le bouddhisme.

Les yaks sont non seulement **adaptés aux environnements extrêmes de haut altitude**, mais ils sont aussi **une ressource durable et économique**. Ils utilisent **efficacement les pâturages** et les points d'eau des zones montagneuses, contribuant à une production respectueuse de l'environnement.

GOAT CASHMERE

Goats have been bred for centuries **in the vast steppes of Mongolia** where harsh winters and dry summers shape an exceptional quality of **cashmere that is finest and longest** in the world.

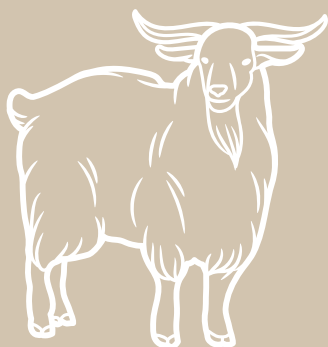

We offer our **cashmere collection without dye** to present this magnificent fiber highly renowned for its quality **as nature shapes it**.

--

Les chèvres sont élevées depuis des siècles **dans les vastes steppes de Mongolie** où les hivers rigoureux et les étés secs façonnent **la qualité exceptionnelle de cachemire** qui est **le plus fin et le plus long**.

Nous proposons notre gamme en cachemire **sans teinture** afin de faire découvrir ce **fibre hautement réputé** par sa qualité tel que la **nature le façonne**.
